DETAILED ACTION

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless -

- (e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.
- 2. Claims 1, 4, 9, 10 & 17 are rejected under 35 U.S.C. 102(e) as being unpatentable over Voit et al (U.S. 6,185,204).

As per claims 1, 4, 9, 10 & 17 Voit disclosed a method of supporting Internet Protocol (IP) based services initiated through a public network, the services directed to a mobile device through a private network, the method including the steps of: assigning a long lived IP address and a user name to the mobile device in a wireless network; the long lived address mapping the mobile device to a zone of the private network (col.10, lines 45-67); providing a server having an IP address within said zone and including a database having a cross reference between said user name and said long lived IP address for said mobile station; connecting an address space of said zone to the public network using a network address translator (NAT) (col.4, lines 24-37, col.6, lines 19-42); initiating a push session between a push client and the mobile device by forwarding from said push client to said server said user name; retrieving and returning to said NAT said long lived IP address corresponding to said user name; and assigning a dynamic public address that corresponds to said long lived IP address, thus the mobile device, using an application level

gateway that is associated with said NAT and returning said dynamic public address to said push client (col.13, lines 1-36).

Page 3

- 3. As per claims 2 & 11 Voit disclosed the method of claim 1 wherein said step of assigning a long lived IP address further includes including said long lived IP address in a home location register database within a radio network (col.10, lines 45-67).
- 4. As per claims 3 & 12 Voit disclosed the method of claim 1 wherein said step of assigning a long lived IP address further includes programming said long lived IP address into the mobile device (col.10, lines 16-32).
- 5. As per claims 5 & 13 Voit disclosed the method of claim 1 wherein said step of providing a server includes providing a session initiation protocol (SIP) registrar server (col.6, lines 47-63).
- 6. As per claims 6 & 14 Voit disclosed the method of claim 1 wherein said step of providing a server includes providing a domain name service (DNS) server (col.6, lines 19-42).
- 7. As per claims 7 & 15 Voit disclosed the method of claim 1 wherein said step of providing a server includes providing wireless application protocol (WAP) server (col.12, lines 6-43).
- 8. As per claims 8 & 16 Voit disclosed the method of claim 1 wherein said step of assigning a dynamic public address using an application level gateway (ALG) includes using one of a SIP ALG, DNS ALG, and WAP ALG (col.6, lines 14-42).

Conclusion

9. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.

Nodoushana (U.S. 6,144,849) disclosed method and apparatus for over-the-air service provisioning of a mobile telephone.

Emery (U.S. 5,353,331) disclosed personal communications service using wireline/wireless integration.

Emery (U.S. 5,506,887) disclosed personal communications service using wireline/wireless integration.

Winblah (U.S. 6,205,330) disclosed system and host arrangement for transmission of electronic mail.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Asghar Bilgrami whose telephone number is 703-305-4623. The examiner can normally be reached on M-F, 8:00-5:00PM.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, David Wiley can be reached on 703-308-5221. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.

Information regarding the status of an application may be obtained from the Patent Application Information Retrieval (PAIR) system. Status information for published applications may be obtained from either Private PAIR or Public PAIR. Status information for unpublished applications is available through Private PAIR only. For more information about the PAIR system, see http://pair-direct.uspto.gov.
